November 2006

If you love your freedom
thank a Vet.

+++++++++++++++++

If you have equipment to
sell.

From: Walter Beach VE3FJC

I will assist people to sell their Ham radio equipment. I can handle estate sales for widows or people leaving the hobby. I will get fair prices for the equipment. Reduce the traffic to the ham site for the owners.
73 Walter

Follow the journeys of our
Friends Jutta and Heiko.

From: Howie VE3TYQ

<http://www.sy-momo.de/indexeng.html>

Jutta and Heiko are bound for warmer climates. Their site includes ARPS. Drop them a line when you have a moment.

+++++++++++++++++

Who would have thought we'd be back to summer like weather. While other parts of the country are dealing with snow we've got temperatures higher than 10 degrees Celcius and rain..... At least we don't have to boil our water or freeze our fingers while working on antennas. I'm trying to remember the last time we had 12 degree temperatures in November in Ontario. If anyone can help me remember, I'd appreciate it. A reminder is a great thing.

Given the unusual weather it is just as likely that things will return to "normal" with a snap. Be careful walking, driving and putting up your Christmas lights... We want all members of the Club to enter the holiday season, happy, healthy and free from casts, stitches, splints, bumps, bangs and bruises.

Remember. Save some time for radio. I had a great chat on 20M with a ham from Calgary who had worked on the AVRO Arrow. Talk about a great way to meet those who were "there", saw and participated in some of the history that made us who we are.

Remember as well to say thank you to the veterans who did so much so we could have so much. It's the least we can do.

Your humble scribe
Ken
