REPORT OF ACTIVITIES OF THE NORTH SHORE AMATEUR RADIO CLUB TWO METRE NET

This report for the month of September shows the continued interest that is being taken in net activities. The average number of stations checking in was 39, which is very good as a fair number of 'regulars' were absent, involved in other fall programs that are just starting up. The highlight of the month was when Master Chef Bob VE3GND presented an authentic, and presumably harmless recipe for Haggis. This he did with all the flair of a magician pulling rabbits out of a hat. It is passing strange that our attendance fell to 30 check-ins on the following Thursday net. I hope that all recovered. H!!!

It is with pleasure that we hear Don VE3HDV (Happy Don's Voice) call in and learn of the favourable progress that he is making. Very good, Don, keep it up!

A reminder that Dave Dell VE3GUD is looking for volunteers and equipment for the Boy Scouts' Jamboree On the Air on October 21/22. This is an annual world wide Boy Scout/Amateur communication event on all bands and deserves the support of all amateurs.

A welcome home to Ken and Doreen VE3FPP and FE3FUR after their holiday in England.

In closing, hearty congratulations to those who 'made it' in the recent exams, and a sincere word of encouragement to those who must try again, and to all who have joined the Code and Theory classes this fall. And, of course, my usual thanks to all who in any way help to make the net a success. I hear it described as 'Perce's Net'. While this is flattering, I must say that any popularity the net enjoys is directly the result of the news items that you callers-in provide, and the traffic that is handled. It is often said that this is a friendly, interesting net. Keep it up .... let's shoot for the top.

73 and 88's, Perce VE3AEX, Net Control

OCTOBER EDITION - 1978

NEWS ITEMS:

We wish to remind you again of the Boy Scout Jamboree on October 21 and 22, also the Car Rally on November 4. Operators wishing to help, contact Dave GUD at 668-3083 - Whithy.

Contacts made by any NSARC member with 10 other members on the H.F. bands verified with QSL's will be awarded a certificate.

The first contact anywhere by a new ham verified by a QSL card will be awarded a certificate by our club.

We require someone who can do old English lettering to fill in the certificates. Please contact Cy Hamilton LET.

There are many certificates and awards that operators may wish to try for that are available through the A.R.R.L. The one I like best is the 'So what certificate'. It's all been done before, 'so what'. I operate amateur radio for the sheer enjoyment of it.

The Wednesday night transmitter hunts are still going strong. Ralph CRK has a new secret weapon. Mike FHV is using 'String 2'.

Operating Procedure - from A.R.R.L.

Operating an Amateur Radio Station

Try to avoid the habitual utterances, procedures and inanities which so often make amateur radio contacts boring - things such as the drawn out 'ah-h-h-h', to keep the vox relay closed, or repeated 'double dash' sign on CW, or hackneyed expressions such as 'there' (referring to the other fellow) and 'here' referring to yourself, or 'we' when you mean 'I'.
