Bob Jones is working towards his WAS Award and the other evening he made his 50th contest - Alaska - so congratulations, Bob, good going!

There is a possibility that you, RAYMOND may be able to get 400 RTTY stations, Forum 12, floor model, so I thought I'd contact you for contact numbers. I need them. He is asking orders for them - 325 RTTY stations will go to hands the time.

Mark Verward, VE3WV, is the person who is in charge of the U.S.C. Awards. Work 22 part of summer.

Ralph Day, VE3CRK  
169 Park Rd. S.,  
OSHAWA

3

In order to get our own contribution to the "COT"...

If you're interested stand the hearing this month and you don't lose...

PRESIDENT'S REMARKS:

Thanks to all who showed up at the new meeting hall, I hope to see more of you there at the next meeting - Feb. 10th at 8:15 p.m.

Don't forget the net on 7.170 mhz at 10 a.m. Sunday. The first call-up produced three N.S.R.C. members and the second week about half a dozen checked in. Copy was a bit rough but Ken, VE3FPP, as net control on the first Sunday kept the net going for about an hour. Hope to see more on the net this Sunday. Sorry to say that Ken is in the hospital so I hope he is feeling better and will be able to get our soon.

Now is the time to start thinking about Field Day. Arrange now to have that week-end free. We were quite successful last year and we can be again this year. We will need a Field Day Manager and lots of help!

Dues were due last month. Renew your membership before it's too late. Belong to a club that has two of Canada's best operators, Claude, VE3WQ, top Canadian ARRL DX contest and Mike, VE3DKW, top VE in VHF (432 mhz) work.

Lorna, VE3GNO

TUNING AROUND

Bob Jones is working towards his WAS Award and the other evening he made his 50th contact - Alaska - so congratulations, Bob, good going.

There is a possibility that Dan, VE3CDN may be able to get 100 RTTY machines, Lorenz 15, floor model, so if anyone is interested you may contact him on 2 meters. He is taking orders for them - \$25.00 plus 10% which will go towards the club.

Hank Verwoerd, VE3FHV, is the person who is in charge of the N.S.R.C. Awards. Work 25 paid up members of the N.S.R.C. and get your award. Contacts made during net times are not allowed. Contact may be made on any frequency at any time and mode.

In order to cut down on expenses we are going to make our own coffee and every member can put a contribution in the "coffee can".

If you are unable to attend the meeting this month send your dues to John Pluister, VE3FGL, 52 Thicksons Road North, Whitby. Dues are due now! Please add exchange to your cheque.

FULL MEMBER - \$5.00                      STUDENT - \$2.50                      ASSOCIATES - \$2.00

\*\*\*\*\*

( if you wonder why this half of the page is empty it's because  
only a very few people sent anything in!!! )

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the data is both reliable and representative of the overall population being studied.

The third section provides a detailed breakdown of the results. It shows that there is a significant correlation between the variables being measured. This finding is supported by statistical analysis and is consistent with previous research in the field.

Finally, the document concludes with a series of recommendations for future research. It suggests that further studies should be conducted to explore the underlying causes of the observed trends. This will help to refine the current model and provide a more comprehensive understanding of the phenomenon being studied.

The data presented in this report is confidential and should be used only for the purposes specified in the original agreement. Any unauthorized use or distribution of this information is strictly prohibited.

BUDGET FOR 1970

Bank Balance as of the end of December, 1969 - \$63.43

Rent - 1970	\$ 80.00
Bulletin	50.00
Field Day	50.00
Miscellaneous	50.00
	<u>\$ 230.00</u>

This is what it is going to cost us to run the Club for one year at \$5.00 per membership. It will take 46 paid up members. At the January meeting we had a total of 27 paid up members for 1970. Dues were to be paid by the first meeting in January.

The cost of the Repeater Station VE3OSH must now be added to this figure.

Rent and Hydro for 12 months	180.00
Total	<u>\$ 410.00</u>

This would require 92 paid up members for 1970 at \$5.00 a membership. The total membership including students, associate members, and members' wives was 64 for 1969.

Now you may say there are other ways of raising money to pay our bills, such as Banquet (lost money)  
Corn Roast (made \$2.00)  
10% Auction Sale (made \$10.90)  
This is not going to pay our bills.

The North Shore Radio Club Executive held a meeting on Tuesday, January 20th to discuss our financial position, and on January 25th we held a combined meeting between the F.M. Committee, represented by Bernie Sandbrook, and Executive. The results of this meeting are that the North Shore Radio Club terminate all financial responsibilities with the FM Repeater Station, VE3OSH, as of January 31st, 1970, that we pay the last 6 months rent and hydro for 1969

and the month of January 1970	\$ 90.00
	15.50
	<u>\$ 105.00</u>

The operating cost of Club for 1970	230.00
Owing on Repeater Station	105.50
	<u>\$ 335.50</u>

Total membership required at \$5.00 - 67

This does not mean that VE3OSH is going off the air, but that the North Shore Radio Club can not support a repeater on dues alone. The FM Committee will probably ask users of the repeater for donations or set a fee to cover costs. More on this will come from the FM Committee later.

I wish to congratulate the FM Committee on the splendid job they have done in getting a Repeater Station set up and running in Oshawa. I am only sorry that the Club can not help financially. We do need more members. If you have not paid your dues and intend to pay them, please do so at the Feb. meeting. I also ask that you read your Club By-laws, Section 2 on Dues.

In order for our Club to exist we must either get more members, raise dues or have money making projects in the next year, it is up to you to decide what it will be.

Ralph, VE3CRK

AMENDMENTS TO BY LAWS

Section 2. Dues  
second paragraph - " The fees for membership shall be due and payable upon admission and shall be renewable on the first meeting of January each year.

\*\*\*\*\*

HINTS & KINKS

A use for mothballs

The silver plated contacts of components, switches, relays etc. that are going into the junk box may be protected from tarnish by placing a moth ball in the storage compartment . This will save a lot of trouble with bad contacts when the device is to be used again.

The big trick may be catching a moth.

Pete, VE3DFD

NEXT MEETING

To be held at Thorntons Road Community Centre, Thorntons Road North, Tuesday Feb. 10th at 8:15.

Chris Lyons, VE3GUS who is a member of the RSO and is on the TVI Committee will speak to us on TVI. I'm sure everyone of us at one time or another has had a TVI problem so the evening should be quite interesting.

\*\*\*\*\*

FOR SALE

APR4Y RECIEVER 38 to 4000 working \$75.00

M.C. JONES MICROMATCH 40 watts full scale \$15.00

Lp-69C/ALAZ PANADAPTER 25-30 Mhz. \$25.00  
(less power supply)

CALL MIKE SHERBA VE3DKW 723-7674

Minutes of the 247th general meeting of the C.I.C.

Time: 10 A.M.

Place: Thornton Rd. Community Centre

Total no. of members present: 18

Total no. of guests present: 5

Lorna Lolly opened the meeting by asking Ray Glante to read the letter from V. J. J. regarding our new slate of officers for the new year. He congratulated Lorna on being the new president.

Ken Aston brought up the idea that a 40 meter net be started on Sunday mornings. He thought that the best clear freq. would be 7170 at 10 A.M. He also stated that he would act as net control, starting with Sunday Jan. 17/70.

Lorna suggested that a manager for the field day be nominated tonight. Some members felt that it was too early to get field day under way. No action was taken.

The members of the club were asked if they would like a banquet or a dance this year. Since there was a loss of money on the banquet last year it was felt that a dance would be better this year. No action was taken.

John Plouster is the new registrar for the club. Roy Miller the outgoing registrar was thanked by the membership for the A1 job he did in the past. John also stated that dues are due tonight.

There was an amendment to club constitution regarding location of club meetings. The amendment is to read, Thornton rd. community centre. Ralph Day and Terry Short approved the motion and it was passed by the club.

It was suggested that dues become payable on the first meeting in January of every year. Seconded by Harry Catwood and passed by the membership.

Ken wanted to know how many members used the 5 meter F.F. repeater. Hank Verwood said there were 40 persons using the repeater at the present time.

Mr. Marchand of our local radio station gave an impressive slide show regarding fifty years of radio operation. At the end of the showing he answered any questions that were put to him by the members. He added that the members were invited to come and view the facilities of the radio station.

Meeting adjourned at 1015 P.M.
