FIELD DAY REPORT

I am very pleased to report a successful field day for 1970. We had four operating stations; 80 cw, 75 phone, 40 cw, and 20,15, and 10. We had sixteen participating people, amateurs and prospective amateurs.

Equipment consisted of drake TR-4, SB-400, Hw-100, Collins " S LINE " three 1500 watt generators , and a lot of lost sleep. Hi Hi.

Total contacts; 80cw - 179, 75 phone-317, 40 cw - 440, 40 phone - 41, 20 cw - 118, 20 phone 252, 15 phone - 32, 15 cw - 4, 10 phone 20.

Total contacts 1403

Total score 9218

I would like to thank EMO for the equipment that we borrowed for field day, and also the fine cooperation it recieved from the club members and friends. Also a big thanks to Bill Cox for the use of his farm.

NEXT MEETING

Next meeting Mike Sherba VE3DKW will give an informative talk on semiconductors, be there.

PRESIDENTS REMARKS

Now that summer is almost over it is time to get back to ham radio again. I don't imagine that many of you were on the air during the few hot weeks we had, but since we are in a cooling off period it is time to make contacts again.

I was really very pleased to see many of you turn out for telescope night at Raglan. We had about six telescopes and we viewed many of the stars and planets. We also had a lucky draw of a "73" magazine donated by Ken, VE3FPP and won by VE3BU, Irv Hyman, who is going to move to Winnipeg. We wish him the best and hope to hear him on the air and qsl with him. I was glad to see some of the newer hams there and I hope they come out to the meetings.

We are meeting at the same time and the same place as in the spring - second Tuesday of every month at 8:15 p.m. - Thorntons road Community Centre, Thorntons Rd. n. Oshawa.

How about having another social "get together" in September? I don't know if anybody noticed but there are two fire places behind the hall where we meet and they would be ideal for a corn or weiner roast. How about it? I will be looking for suggestions at the next meeting.

Some of you recieved Phone calls from July re Whitby County Town carnival. I thought it would be great if the north shore radio club could help provide communications for the parade which was held on Sat. Aug. 1. Everyone is saying that we don't "do Anything" so I thought at this time we could do something. Well, after various phone calls and not much response because of various reasons, I decided that we could not help out because of insufficient help, so Pete and myself helped the EMO with Communications, and we really had a ball of fun, so please don't say that the club doesn't do anything, at least I tried.

Let's make the fall meeting a 100% success. Participation is the word I would like turned into action.

Lorna VE3GNO

NOISE FILTER

Radio noise has always been a problem and to do something about it another. Here is a simple noise filter that works on ssb and cw. On test with an Eicc 753 and using a mix master as a noise generator a marked improvement was noted. No change in you sets wiring is needed.

Diodes used were just switching computer surplus. Components can be assembled on simple circuit board 1" x 1 1/2".
