LAST MEETING

This was our Nomination Night. Ballots were handed out and everybody put down their favourites for the respective offices. Two members were appointed to do the necessary foning around to find out whether the nominated persons would stand or not.

After the coffee break we had the pleasure of listening to explanations by Bernie, ATI, with regard to facsimile transmissions. A link had been set up between two machines and we were all treated with the real thing, "Fax" transmissions from one machine to the other. All in all a very worthwhile meeting.

\* \* \* \* \*

NEXT MEETING - Home Brew Night

For and After Recess Programme - We should have a very interesting and informative time. Farney has offered to show and explain his home brew frequency digital read out project. We hope many others will bring and show their pet projects and remember dah-dit-dit-dit-dit-dah, big or small, bring 'em all.

John, VE3FGL

NEXT MEETING - DECEMBER 8th - THORNTON ROAD COMMUNITY CENTRE,

8:15 P.M. THORNTON ROAD NORTH, OSHAWA

December, 1970

FROM THE EDITOR:

Here goes - your new Editor - First of all let's say "Thank You to the old one, Henry. I do not know how long Henry has been our editor, but it seems to me that he had a terrible time getting copy out of the membership. His words are: "It's like trying to get water out of a rock". Well, if that's the case, what kind of a bulletin do we expect? November was a good bulletin, lots of news, but only written by one person - FPP, Ken. I had to check with John, FGL, to see how many members the North Shore Radio Club has, just imagine if all of them send me as much copy as Ken did last month, we'd go broke by paying out the extra postage so don't all fone me at once, we like to keep the cost down, but if you unexpectedly have an item of interest, let me know, we might be able to fit it in the next month or so.

For instance, John, FGL, should have foned me, he put in a complete waterworks one weekend in November. This may not have anything to do with hamming you say, it sure has, it started in 1929, (or was it 1928?) anyway, John's plans are excellent, there is something wrong with the execution of them.

So you see, there is always something worthwhile writing about. We'll print even personal matter like advertisements. If you have anything to sell or you want a specific item (not necessarily amateur radio) we will do our best to fit this in for you. Also let us know about new arrivals, be it male or female, we don't care.

Do not forget the "high speed" code classes, held every Wednesday night at 7:00 P.M. at the Oshawa Airport, oh, and of course the course for the advanced amateur license, same time - same place. The Honourable Mike, FIV, is your teacher.

I hope Lorna corrected all my mistakes while typing this out. I made this story up on the newly acquired teletype machine, if you make a mistake, you've had it, there is no way back!

The next meeting will be ELECTION NIGHT, don't let you vote go to waste by not showing up, we need the full membership to elect the new executive for 1971.

I heard some talk about a W.A.S. (Worked All States) Contest. Sounds like a good idea, we had one before, some years back. Neal, BRF, was looking after that one, but as you know Neal has moved out of our area, so if there are plans in that direction, we shall need a new W.A.S. Chairman. Sounds like a good job for a hot operator, someone who does not have the award yet. (I do)

Well, that should be enough for a start, we'll see you all at the next meeting, and don't forget - this is our social bulletin, keep us informed of your activities, whether you're putting in waterworks or putting up towers, it's all the same to us, we like to know about it, and so does the rest of the membership. (That was a nasty remark in the last bulletin about me being the last one on the dance floor, I had'nt been there all night, it was just that I wanted to be the first one there for the morning-service, held in the same building.)

Hank, FHV

P.S. SEASON'S GREETINGS AND ALL THE BEST FOR 1971.

Dec. 1970

FIELD DAY REPORT

Here is a run-down on how we placed in the 1970 Field Day as issued by QST.

We entered the four transmitter, 4A Class this year. Total number of points made by us were 9,218. This made us SECOND highest CANADIAN in class 4A. We missed top spot for Canadians by 105 points as Peel was the area leader with 9,322 points.

Taking a look at the whole contest from 1A to 15A, we placed 7th out of 63 Canadian Clubs. Out of all the Clubs, consisting of Canadian and American, in the 1A to 15A class we came 120th out of a total of 923 Clubs. We could have come first in our class of 4A among Canadians if we had bonus points for publicity and Field Day message, but maybe next year.

Again I would like to thank all who made it a successful Field Day.

Ralph Day, VE3CRK  
Field Day Manager 1970.

PRESIDENT'S REMARKS

In my last meeting as President of the N.S.R.C. it would please me very much if we could have a "full house". It is Election Night and I would ask that each and every member think about standing for office if you are nominated. I realize that many of you are on shift work but I think that if we spread the work around a little more everyone could become involved instead of just the same few doing everything.

The club, I feel, has had a successful year and I hope that next year will be equally successful. I would like to thank my executive for all their suggestions and assistance and I ask everyone to support next year's executive.

Here's wishing you a very MERRY CHRISTMAS to everyone at your qth.

*Loma, VE3GNO*
