

NORTH SHORE RADIO CLUB

S U M M E R B U L L E T I N

Minutes of the meeting of June 8th, 1971.

12 members and 2 visitors present.

The meeting was opened at 8:30 p.m. with the reading of the minutes of the last meeting. Ralph, CRK moved that they be accepted and seconded by Mike, FIV.

Although it had been decided at last meeting to book the 420 Squadron Bldg. for the Fall Dance, Hank FHV was to check on the hall in Whitby which reportedly has a new floor.

All members were called on to get their entries in on the N.S.R.C. WAS contest to Walter FJC.

Pete DFD although not at the meeting sent in the information that the Boy Scout Assoc. would soon advise on their decision whether the Boy Scout project would go ahead or not.

Ken FPP announced that we would have a telescope night at the repeater site in July and a picnic in the Bancroft area in August.

Ralph CRK announced that a special sale was being made of CJ net directories with the profits to go to the CNIB amateurs.

Field Day was the subject of the evening with Field Day manager Ralph CRK giving details of rule changes and reporting. On a motion by Harry QG, seconded by Mike FIV and passed by the members \$50 was advanced to the FD manager.

The coffee cups did not arrive for coffee break so the meeting adjourned at 10 p.m.

Carl did arrive with the cups before the last of the members had left.

CNE Amateur Station

The Metro Amateur Radio Club is again going to operate the Radio Ham Shack at this years C.N.E., Aug. 19 to Sept. 6 in the Hobby, Crafts & Careers Bldg., near the Dufferin Gate. As they are a small club, they need operators particularly in the daytime. Free passes will be available.

Any member interested should drop a line to the Metro Amateur Radio Club, P.O. Box 352, Downsview, Ont., stating the date and times they would be able to promote Amateur Radio to the public, so that a roster of operators could be made up, and passes sent out. Visiting hams will be made welcome.

FIELD DAY 1971 was a success with beautiful wx but we were lucky that it was over before the great storm struck with giant hailstones and copious quantities of rain. We ran 3 stations with 80cs/75 fone/40 fone in one. Also 40 cw and the third station operated from Farny's wagon on 20/15 ssb. Once again we operated from Bill Cox's orchard location for which we are very grateful. Maybe we will see you there next year.

Hank, VE3FHV has a new addition to his house. When his RTTY gear was running, nobody could watch TV so something had to be done. Hank now has a new hamshack and rec room.

The CLUB recently purchased a new 40 foot tower which we used with the Tri-band quad on field day with good results. John, VE3DDD did an excellent job of installation and removal of the quad and our crew lowered and dismantled the tower til next year. You should have been there - it's lots of fun.

Dan, VE3CDN and Simone have increased the population of Bay Ridges by one. A healthy 8 lb. 1 oz. baby girl. More qrm for the shack.

Weather permitting, the CLUB will once again host a Star Nite at the site of the Repeater north east of Raglan. East on the ridge road above the railway underpass for about two miles at the site of the Skeet Club, the date is July 13 at about 8 p.m. Bring the family and your telescope, if you have one. Even mosquito repellent.

The first annual picnic at Egan Creek will be held on August 8th, Sunday, at Ham's Paradise. VE3FPP, FUR, DFD, GNO, and more recently ATI are the local property owners. Boy, what qrm if everyone puts a rig on up there. It's about 150 miles from Oshawa near Bancroft via Highway 28, see Ken, FPP for directions.

Ken has put a new transistor ignition system in his Triumph Spitfire. All for the price of \$7.50 worth of surplus parts. He says it works good too.

Harry, V#3QG and Farny, VE3BHQ have added further sophistication to their frequency counters with a Heath converter to measure up in the high frequency range. I guess we will all end up on the same frequencies eventually.

FOR SALE: A Heathkit Transmitter model DX-35- 60 w. with Heath VFO model VF1 and power supply for same.

Heathkit Reflected Power Meter model HF-15. Anyone interested please fone 623-7338, VE3DAI, Les Ricard, R.R. 6, Bowmanville.
