REGISTRAR	John Pluister	VE3FGL	576-3009
FLOWERS & CARDS	Ted Brant	VE3ADD	668-3561

PRESIDENT'S REMARKS

We are nearing the end of 1971 and with it is the termination of office of your present executive. It is hoped that we can nominate a new executive and vote for them at the next meeting. Our nominating committee headed by Lorna, 3GNO has been working on some of the names submitted at our last meeting and we will be open for any further suggestions. Wouldn't it be a nice change to see every position contended for by an enthusiast or 3 or 4 members. I can dream, can't I?

This meeting will also culminate the WAS contest with the announcement of the winner and presentation of the prize. If you haven't submitted your entries to Walt, 3FJC, you had better get crACKing NOW!

This brings to mind another contest suggested by John, 3DDD. A QRP contest to stimulate some activity. We will discuss this topic and possibly John will have some words of wisdom on this subject. See you December 14th.

Ken, 3FPP

WANTED:

New or used 40' T.V. tower. Phone Jack Waytough - 576-6368

## LAST MEETING

Our guest speaker, Bill 3CMM brought a good selection of vintage radio receivers and assorted tubes and gear and gave us a good insight into the early days of radio. Bernie 3ATI read a few sentences from a book for boys on how to make radio gear. It was published in 1922 and Ken 3FPP got it from his Dad. Some of the forecasts were humorous in this day and age but probably seemed ok back in those days. Bill is a collector of antique radios and would appreciate any information on the whereabouts of same or any good stuff that is historical but headed for the junk box. The meeting was held in the EMO building at the airport and considering the weather the turnout was quite good. By the way, don't let a few snowflakes stop you from coming to the next meeting. It doesn't stop the postman delivering all those cheques to your door. Besides, the wife likes to get rid of you once in a while!

## NEXT MEETING - DECEMBER 14th - TUESDAY - 8 P.M.

We will be meeting again in the EMO Airport Building at the top of Stevenson Road north of Rossland Road and are making arrangements to meet there regularly. Of course, we are expected to keep the building clean - that means keeping mud and snow outside where it belongs. Rubbers, galoshes, muk-luks etc. would help and there is no rental fee. Co-operation with the EMO in communications for parades etc is one way we can assist them and in turn they assist us.

Besides the Election which shouldn't take any longer than a couple of hours we will throw the meeting open for general discussion and rag-chewing since it is the festive season and we will enjoy ourselves. If you have any slides relating to ham radio that you want to show we will have a 35 mm projector on hand.

## CONSTITUTION

Some of our members may not be aware that we have a constitution and we have made arrangements for our printer to supply a limited number of copies for those who are interested in obtaining a copy. They will be available at the next meeting so if you want one please attend. If it is not possible to be there you can have a friend bring one to you.

## 2 METER FM

Mike 3FIV is testing a 3 input gated solid-state amplified which will be installed in the Repeater shortly. Harry, 3QG is making the necessary power supplies and they will be installing the units very soon. We should have a better audio system with a bit more flexibility.

FOR SALE

Amphenol #621-111 Polyfoam co-ax RG-8 type.
