PRESIDENT'S REMARKS

Welcome to all and I hope you all had a good summer? vacation. It was a good year for bugs (non-electronic) but now that is over we better get out the electronic or pressure type and get back to work on the bands. Since we last met, Ralph CRK, Ron AIY and Don FOP have moved into their new shacks. I wonder if their signals will have a different sound in the new locations? Those who haven't got their advanced tickets yet should consider the idea and I hear that about four of our members of which Terry GTS and Mike FIV are tow are hard at work. Good luck to all.

Bernie VE3ATI

LAST MEETING

We kicked around the idea of having a field day and the response was not sufficient to warrant having one. Everyone did his own thing that weekend and we know a number of our guys were on the air from their vacation locations. Ken FPP, Doreen FUR and Bernie ATI were up at Egan Creek working a few.

NEXT MEETING

Oshawa Airport EMO Bldg. Tuesday, Sept. 12 8.00

Don GEN has just returned from China where he was representing ANDREW ANTENNA on a Trade Mission. Don is going to give us the word on what he did and saw in that great land. It should be very informative and he may have picked up a few words of Chinese for all we know. Come out and hear how he made out. We are expecting a few slides to round out his talk.

John FGL and his XYL Pat are proud to announce the arrival of a little OM to add to their collection. They now have one of each.

Harry QG recently put an SB-102 together so you may not hear him quite as much on 2 FM these days. John FGL is working on antenna systems but is not saying much about it.

2m FM

Mike FIV is working on a new solid state CALL SIGN GENERATOR and it is in the testing stage right now. The repeater is still working well and coverage is fairly good. Rochester stations occasionally call in. Welcome any new users when you hear them. Bill CKK is still running the Tuesday night net and also monitoring the channel if you have any emergency calls for the Police. Just give him the facts and he will do the rest. VE NEWS for August 72 lists a number of things to do when using a repeater, If you see a copy read it - it's good.

Canadian Ladies Amateur Radio Association Certificate

Requirements: CLARA members: work 12 yls in 6 call areas
(no more than 5 - VE3s)

HAM RADIO CLASSES

We have been approached by one of the schools with regard to running ham classes. If you are interested or know of anyone who wants to get their ticket get in touch with one of the executive soon.

MINI-AUCTION

In order to try and dispose of the remnants of the late Hugh 3YE, we will have a few items on the block and no reasonable offer will be refused. Some of the gear will be good for parts but there are a few items such as meters, Transmitting capacitors, RF chokes, coils, hand keys, sounders, switches, mobile whips, etc. There is a complete SSB rig but it is homebrew and used to be in a rack. Anyway, come and see what we have.

FOR SALE

HEATH HW-16 with HG-10 VFO. Price - \$150.00

Club Picnic

Those who turned out for the Picnic up at Egan Creek near Bancroft enjoyed themselves immensely. The weather was good, the food was excellent and the water was inviting.

COUNTY TOWN PARADE

Our club was represented in this parade which was held in Whitby on August 5th. This is an Annual event and it is the first time that we have been involved in it. Our sign which said NORTH SHORE AMATEUR RADIO CLUB was carried by two youngsters and was one of a number of signs which surrounded a float sponsored by the Community Conscience group. This was the same group that organized the Whitby Mall display last winter. Thanks to Wendy, Ken & Doreen's daughter for whipping up a good sign in a hurry. It was appreciated.

HAM ROSTER

Ever wondered who and where all the hams in the area live who are not members of the Club? Ken Clark, 3DOC has prepared a list and it is attached to this bulletin.
