NORTH SHORE RADIO CLUB BOX 171 OSHAWA ONTARIO

1977

DAY RALPH VE3CRK
454 HOLCAN AVENUE
OSHAWA L1G5X6

Well, this is the first time I have ever had a letter from you. I am glad to hear from you and to hear that you are still active in the club. I have been thinking about you a lot lately and wondering how you are getting on. I hope you are well and happy. I have been busy with work and family, but I always find time for my hobby. I have been thinking about the club and how much fun we have had. I hope you are still enjoying it. I would love to hear from you again. Please write back when you have a chance. I would love to hear all the news. I hope you are still active in the club. I have been thinking about you a lot lately and wondering how you are getting on. I hope you are well and happy. I have been busy with work and family, but I always find time for my hobby. I have been thinking about the club and how much fun we have had. I hope you are still enjoying it. I would love to hear from you again. Please write back when you have a chance. I would love to hear all the news.

Next Meeting: Monday, January 10, 8:00 PM, Durham College. I hope you can attend. I would love to see you. I have been thinking about you a lot lately and wondering how you are getting on. I hope you are well and happy. I have been busy with work and family, but I always find time for my hobby. I have been thinking about the club and how much fun we have had. I hope you are still enjoying it. I would love to hear from you again. Please write back when you have a chance. I would love to hear all the news.

We have a new list of members and a list of names which may be added. I would love to hear from you. I have been thinking about you a lot lately and wondering how you are getting on. I hope you are well and happy. I have been busy with work and family, but I always find time for my hobby. I have been thinking about the club and how much fun we have had. I hope you are still enjoying it. I would love to hear from you again. Please write back when you have a chance. I would love to hear all the news.

(General Meeting) The next meeting will be held on Monday, January 10, at 8:00 PM. I hope you can attend. I would love to see you. I have been thinking about you a lot lately and wondering how you are getting on. I hope you are well and happy. I have been busy with work and family, but I always find time for my hobby. I have been thinking about the club and how much fun we have had. I hope you are still enjoying it. I would love to hear from you again. Please write back when you have a chance. I would love to hear all the news.

REGISTRAR	John Pluister	VE3FGL	655-4269
GET WELL CARDS	Ted Brant	VE3ADD	668-3561
EDITOR	Bernie Sandbrook	VE3ATI	655-4156

JANUARY 1977

PAST MEETING

Well, this year the wx did not hamper our annual Wine & Cheese party and those who were at the Legion seemed to enjoy sampling the different grape products from several different countries of the world. Along with the aforementioned was the last minute Nominations for the 1977 Executive followed by the Elections and the above slate gives us encouragement for this year. Give them your support, your ideas for a better club, suggestions for speakers or films and come out for every meeting. The latter is more important than you think as it gives you a chance to meet and get to know the newer members. We hear quite often the remarks like 'I don't know half of the members of the club'. This is not the fault of the Executive and the best way to remedy this is to get out and shake the hand of the person you don't know and ask him or her what their call is, if licensed, and exchange yours. Tell them what your interests are and you will have a new friend.

NEXT MEETING Tuesday 8.00 p.m. January 18 ROOM C243 Durham College

Farny, 3BHQ will speak on the subject of Input/Output interfacing between the Microprocessor and a TV terminal. This is a very relevant subject and Farny generally has a demonstration for us. We will not say any more about it except that Mike, 3FTV and Bernie, 3ATI will probably assist Farny if he requires some assistance.

We thank Bob, 3HNL for printing the new Roster and a list of repeaters which may be worked if you head down south. Thanks to Don, 3HYW for providing the FM listing. Pull these out of the Bulletin and you can use them at home and in the car.

THE LAWS OF MURPHY

(General Engineering)

- 2-4 The necessity of making a major design change increases as the fabrication of the system approaches completion.
- 2-5 Firmness of delivery dates is inversely proportional to the tightness of the schedule.
- 2-6 Dimensions will always be expressed in the least useable terms. Velocity, for example, will be expressed in furlongs per fortnight.

BITS N PIECES

The Financial Statements for the Club are included in this issue so you can see where all of the money spent during this year went to. One of them, the VE3OSH repeater statement is not actually a Club matter, but we include it here so that the supporters of the repeater will know what funds were received and disposed of during 1976.

The repeater, for all of the newer members and readers who may not be up on these things, is not owned by the Club but does receive some financial support from it. If you haven't contributed recently, but wish to send in your donation, send it to the treasurer of VE3OSH -

Harry Westwood VE3QG 50 Sherwood Rd. East, Pickering

No doubt, some of you have received some new ham gear for Christmas and have tested it out but we haven't heard any news yet. 3QG and 3ATI gave themselves new fone patches but they have to be assembled yet. Bob, 3HNH is still fighting power supply problems. This is his nemesis. (look that one up in the dictionary, Bob!) He seems to have replaced everything except the cabinet and if it still gives him trouble, he is thinking of going back to the GRS band for keeps. (poetic licence). Ken, 3FPP reports that Bob has a little bit of a tilt to his 20 meter beam. Wonder if this is the secret in working those rare DX stations, Bill?

John, 3FGL has now successfully lowered his tilt-over beam support after cutting down 3 trees. When spring comes can beam assembly be far behind? Rae, 3RP is on his annual sabbatical and will probably be at the next club meeting. Take a look and see if Rae has any indication of the Sabbatical Flu. The last time he came to the meeting some of the hams claim he inoculated them.

Eric, 3HMG and Harry, 3QG had a picnic up at the repeater on Dec. 23rd and nobody else showed up. They had lunch and a checkered table cloth with liquid refreshments. I guess the invitations never got mailed out soon enough. Earl, 3AZT will be off the air in the mobile until the warm weather comes unless heads for Florida. The special insert of repeater channels may come in handy, Earl!

Bernie, 3ATI, Ken, 3FPP and Doreen, 3FUR spent the week after Christmas up in the Bancroft area and did some snow-shoeing etc. Doreen's brother-in-law, John, tested the ice in the Egan river and we can report that it isn't safe at one spot. He suddenly disappeared, almost, and was down a hole in the ice with his arms out on the ice. We rescued him and he showered, and dried out in due course. The wx was fairly cold but he could still walk. On Tuesday morning, Dec. 28 the thermometer registered minus 29 Celsius (-20 F.)

Is it true that Eric, 3HMG needs an anchor tied around his waist when he goes out for his mail? The farm to the west of his QTH is called Windy Acres so if Eric mentions Groundhog Hill, think about the wind he could be using to develop power and forget the groundhogs.
