July
Aug.

Greetings!

Just one page this month, to remind you of the upcoming fun during the summer months. Best 73s to all, es hope to see you at the repeater site in July! -- VE3KSP

SUMMER EVENTS

Instead of meetings during July and August, the following activities are planned for the second Tuesday of each month. The get-togethers will begin at 8:00 in the evening, as usual, but the locations are different . . .

TUESDAY, JULY 10 Yea and verily, "**The Sermon on the Mount**" gathering at the VE3OSH repeater site. Please refer to map for directions.

TUESDAY, AUGUST 14 is the annual "**Corn Roast**". Everybody welcome. Location shown on the map also.

HOW TO GET THAT ADVANCED LICENSE!

Now that the new D.O.C. regulations have been adopted, there may yet be hope that some of us can upgrade those Amateur licenses of ours to get the Advanced ticket. **Advanced Amateur classes** will be held at Durham College, starting on Thursday, September 27, and continuing every Thursday for twenty weeks from 6 to 8 in the evening. The course will cover both regulations and theory for the Advanced exam. (Improving your code speed you can do yourself.)

Durham College always mails out a brochure describing its continuing education classes to every household in the region near the end of August. So check your mailbox, fill out the registration form, and join VE3KSP and the rest of the ~~suckers~~ students trying to get that elusive upgrade! The cost will be \$60.00.

For more information, contact Mike Skinner, VE3FIV, at 983-9584.

DX-ERS TAKE NOTE

For the next few weeks you can take your pick of **special prefixes** and try to attract a pile-up with one of them.

In honor of the 400th anniversary of Jacques Cartier's discovery of Canada, an Ontario amateur can be a "VY3" from now until August 20th.

If he or she prefers to celebrate Ontario's Bicentennial (of exactly what it is supposed to be the bicentennial many historians seem to be unsure) the station can use the prefix "X03" throughout the month of July only.
